Ladies and Gentlemen,

on March 23rd, 2011 EuroWindowor will host its conference on *Climate Protection with new Windows*.

Our aim is to create a contact and information platform for window, door and curtain wall manufacturers acting in Europe as well as representatives of associations on national and European level and politicians involved in decision making within the European Union.

The conference offers a unique opportunity to get information on the latest legal, technical and normative developments of the European window and facade market.

We are looking forward to meeting you in March 2011 in the heart of the European quarter in Brussels.
